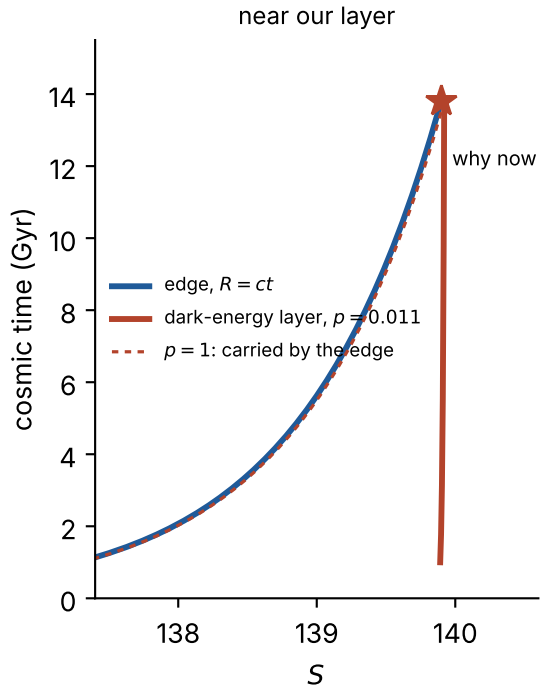
the sheet
floor
proton
W
atoms
electron
Sun
Milky Way
ours
today's cut across all layers
everything below the edge
exists at that time
edge of the universe, c/H
(= ct, HMG's slice, at late times)
log10 cosmic time (Gyr)
S (e-folds of radius above the floor)



near our layer
why now
edge, R = ct
dark-energy layer, p = 0.011
p = 1: carried by the edge
cosmic time (Gyr)
S
